

GME Program Coordinator Excellence Award

The GME Program Coordinator Excellence Award honors and recognizes the crucial role that program coordinators play in the success of a residency/fellowship program. The ACGME congratulates the recipients of the 2018 GME Program Coordinator Excellence Award.

Lisa Miller, C-TAGME

Internal Medicine
University of Michigan
Ann Arbor, Michigan

Nominators had this to say:

“The University of Michigan has a Program Coordinator Education Series where monthly one or two focused topic sessions occur which involve the viewpoint from the GME Office, a program coordinator(s), and others as relevant to provide a comprehensive overview and understanding of the discussion topic. As the GME Office plans these sessions and discusses which program coordinator should be asked to provide the program coordinator viewpoint,

Lisa's name is repeatedly mentioned. This is because of her tremendous experience, completion of timely and accurate documentation requested by the GME Office, and compressive understanding of GME from not only the program level, but institutionally and nationally. Even though she is a well seasoned program coordinator, she attends the majority of our education sessions.”

“Lisa's greatest impact has been as a leader of the internal medicine GME effort. She in addition to having recruited some of the members of our administrative group, Lisa has provided an infrastructure for their work and collaboration. She has been extremely mindful of each of their goals and needs and has been flexible to create a work environment that is supportive, highly collegial and collaborative.”
