Int.A.	<p>Definition of Graduate Medical Education</p> <p><i>Fellowship is advanced graduate medical education beyond a core residency program for physicians who desire to enter more specialized practice. Fellowship-trained physicians serve the public by providing subspecialty care, which may also include core medical care, acting as a community resource for expertise in their field, creating and integrating new knowledge into practice, and educating future generations of physicians. Graduate medical education values the strength that a diverse group of physicians brings to medical care, and the importance of inclusive and psychologically safe learning environments.</i></p> <p><i>Fellows who have completed residency are able to practice autonomously in their core specialty. The prior medical experience and expertise of fellows distinguish them from physicians entering residency. The fellow's care of patients within the subspecialty is undertaken with appropriate faculty supervision and conditional independence. Faculty members serve as role models of excellence, compassion, cultural sensitivity, professionalism, and scholarship. The fellow develops deep medical knowledge, patient care skills, and expertise applicable to their focused area of practice. Fellowship is an intensive program of subspecialty clinical and didactic education that focuses on the multidisciplinary care of patients. Fellowship education is often physically, emotionally, and intellectually demanding, and occurs in a variety of clinical learning environments committed to graduate medical education and the well-being of patients, residents, fellows, faculty members, students, and all members of the health care team.</i></p>	[None]	<p>Definition of Graduate Medical Education</p> <p><i>Fellowship is advanced graduate medical education beyond a core residency program for physicians who desire to enter more specialized practice. Int.A. - (Continued)	<p><i>In addition to clinical education, many fellowship programs advance fellows' skills as physician-scientists. While the ability to create new knowledge within medicine is not exclusive to fellowship-educated physicians, the fellowship experience expands a physician's abilities to pursue hypothesis-driven scientific inquiry that results in contributions to the medical literature and patient care. Beyond the clinical subspecialty expertise achieved, fellows develop mentored relationships built on an infrastructure that promotes collaborative research.</i></p>	[None] - (Continued)	<p><i>In addition to clinical education, many fellowship programs advance fellows' skills as physician-scientists. III.	Fellow Appointments	Section 3	Section 3: Fellow Appointments
III.A.	Eligibility Criteria	[None]	
III.A.1.	Eligibility Requirements – Fellowship Programs All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a program with ACGME International (ACGME-I) Advanced Specialty Accreditation, or a Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency program located in Canada. (Core)	3.2.	Eligibility Requirements – Fellowship Programs All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a program with ACGME International (ACGME-I) Advanced Specialty Accreditation, or a Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency program located in Canada. (Core)
III.A.1.a)	Fellowship programs must receive verification of each entering fellow's level of competence in the required field using ACGME, ACGME-I, or CanMEDS Milestones evaluations from the core residency program. (Core)	3.2.a.	Fellowship programs must receive verification of each entering fellow's level of competence in the required field using ACGME, ACGME-I, or CanMEDS Milestones evaluations from the core residency program. (Core)
III.A.1.b)	Prerequisite Post-Graduate Clinical Education	3.2.a.1.	Prerequisite Post-Graduate Medical Education To be eligible for appointment to a 24-month educational program, an individual must have completed a urology residency program that satisfies the requirements in 3.2. (Core)
III.A.1.b).(1)	To be eligible for appointment to a 24-month educational program, an individual must have completed a urology residency program that satisfies the requirements in III.A.1. (Core)	3.2.a.1.	Prerequisite Post-Graduate Medical Education To be eligible for appointment to a 24-month educational program, an individual must have completed a urology residency program that satisfies the requirements in 3.2. (Core)
III.A.1.b).(2)	To be eligible for appointment to a 24-month educational program, an individual must have completed a urology residency program that satisfies the requirements in III.A.1. (Core)	3.2.a.2.	To be eligible for appointment to a 36-month educational program, an individual must have completed an obstetrics and gynecology or urology residency program that satisfies the requirements in 3.2. (Core)
III.A.1.c)	Fellow Eligibility Exception The Review Committee for Obstetrics and Gynecology and Urology will allow the following exception to the fellowship eligibility requirements:	3.2.b.	Fellow Eligibility Exception The Review Committee for Obstetrics and Gynecology and Urology will allow the following exception to the fellowship eligibility requirements:

Roman Numeral Requirement Number	Requirement Language	Reformatted Requirement Number	Requirement Language
III.A.1.c).(1)	An ACGME-accredited fellowship program may accept an exceptionally qualified international graduate applicant who does not satisfy the eligibility requirements listed in III.A.1., but who does meet all of the following additional qualifications and conditions: (Core)	3.2.b.1.	An ACGME-accredited fellowship program may accept an exceptionally qualified international graduate applicant who does not satisfy the eligibility requirements listed in 3.2, but who does meet all of the following additional qualifications and conditions: (Core)
III.A.1.c).(1).(a)	evaluation by the program director and fellowship selection committee of the applicant's suitability to enter the program, based on prior training and review of the summative evaluations of training in the core specialty; and, (Core)	3.2.b.1.a.	evaluation by the program director and fellowship selection committee of the applicant's suitability to enter the program, based on prior training and review of the summative evaluations of training in the core specialty; and, (Core)
III.A.1.c).(1).(b)	review and approval of the applicant's exceptional qualifications by the GMEC; and, (Core)	3.2.b.1.b.	review and approval of the applicant's exceptional qualifications by the GMEC; and, (Core)
III.A.1.c).(1).(c)	verification of Educational Commission for Foreign Medical Graduates (ECFMG) certification. (Core)	3.2.b.1.c.	verification of Educational Commission for Foreign Medical Graduates (ECFMG) certification. (Core)
III.A.1.c).(2)	Applicants accepted through this exception must have an evaluation of their performance by the Clinical Competency Committee within 12 weeks of matriculation. (Core)	3.2.b.2.	Applicants accepted through this exception must have an evaluation of their performance by the Clinical Competency Committee within 12 weeks of matriculation. (Core)
III.B.	Fellow Complement The program director must not appoint more fellows than approved by the Review Committee. (Core)	3.3.	Fellow Complement The program director must not appoint more fellows than approved by the Review Committee. (Core)
III.B.1.	There should be at least two fellows in the program at all times. (Detail)	3.3.a.	There should be at least two fellows in the program at all times. (Detail)
III.C.	Fellow Transfers The program must obtain verification of previous educational experiences and a summative competency-based performance evaluation prior to acceptance of a transferring fellow, and Milestones evaluations upon matriculation. (Core)	3.4.	Fellow Transfers The program must obtain verification of previous educational experiences and a summative competency-based performance evaluation prior to acceptance of a transferring fellow, and Milestones evaluations upon matriculation. (Core)
IV.	Educational Program <i>The ACGME accreditation system is designed to encourage excellence and innovation in graduate medical education regardless of the organizational affiliation, size, or location of the program.</i> <i>The educational program must support the development of knowledgeable, skillful physicians who provide compassionate care.</i> <i>It is recognized that programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for example, it is expected that a program aiming to prepare physician-scientists will have a different curriculum from one focusing on community health.</i>	Section 4	Section 4: Educational Program <i>The ACGME accreditation system is designed to encourage excellence and innovation in graduate medical education regardless of the organizational affiliation, size, or location of the program.</i> <i>The educational program must support the development of knowledgeable, skillful physicians who provide compassionate care.</i> <i>It is recognized that programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for example, it is expected that a program aiming to prepare physician-scientists will have a different curriculum from one focusing on community health.</i>
IV.A.	Educational Components The curriculum must contain the following educational components:	4.2.	Educational Components The curriculum must contain the following educational components:

Roman Numeral Requirement Number	Requirement Language	Reformatted Requirement Number	Requirement Language
IV.A.1.	a set of program aims consistent with the Sponsoring Institution's mission, the needs of the community it serves, and the desired distinctive capabilities of its graduates, which must be made available to program applicants, fellows, and faculty members; (Core)	4.2.a.	a set of program aims consistent with the Sponsoring Institution's mission, the needs of the community it serves, and the desired distinctive capabilities of its graduates, which must be made available to program applicants, fellows, and faculty members; (Core)
IV.A.2.	competency-based goals and objectives for each educational experience designed to promote progress on a trajectory to autonomous practice in their subspecialty. These must be distributed, reviewed, and available to fellows and faculty members; (Core)	4.2.b.	competency-based goals and objectives for each educational experience designed to promote progress on a trajectory to autonomous practice in their subspecialty. These must be distributed, reviewed, and available to fellows and faculty members; (Core)
IV.A.3.	delineation of fellow responsibilities for patient care, progressive responsibility for patient management, and graded supervision in their subspecialty; (Core)	4.2.c.	delineation of fellow responsibilities for patient care, progressive responsibility for patient management, and graded supervision in their subspecialty; (Core)
IV.A.4.	structured educational activities beyond direct patient care; and, (Core)	4.2.d.	structured educational activities beyond direct patient care; and, (Core)
IV.A.4.a)	Fellows must be provided with protected time to participate in core didactic activities. (Core)	4.11.	Didactic and Clinical Experiences Fellows must be provided with protected time to participate in core didactic activities. (Core)
IV.A.5.	formal educational activities that promote patient safety-related goals, tools, and techniques. (Core)	4.2.e.	formal educational activities that promote patient safety-related goals, tools, and techniques. (Core)
IV.B.	ACGME Competencies	[None]	ACGME Competencies <i>The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.</i>
IV.B.1.	The program must integrate the following ACGME Competencies into the curriculum:	[None]	The program must integrate all ACGME Competencies into the curriculum.
IV.B.1.a)	Professionalism Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. (Core)	4.3.	ACGME Competencies – Professionalism Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. (Core)
IV.B.1.b)	Patient Care and Procedural Skills	[None]	
IV.B.1.b).(1)	Fellows must be able to provide patient care that is patient- and family-centered, compassionate, equitable, appropriate, and effective for the treatment of health problems and the promotion of health. (Core)	4.4.	ACGME Competencies – Patient Care and Procedural Skills (Part A) Fellows must be able to provide patient care that is patient- and family-centered, compassionate, equitable, appropriate, and effective for the treatment of health problems and the promotion of health. (Core)
IV.B.1.b).(1).(a)	Fellows must demonstrate competence in performing a female pelvic exam, including quantification of pelvic organ prolapse. (Core)	4.4.a.	Fellows must demonstrate competence in performing a female pelvic exam, including quantification of pelvic organ prolapse. (Core)
IV.B.1.b).(1).(b)	Fellows must demonstrate competence in the evaluation and management of patients with:	[None]	
IV.B.1.b).(1).(b).(i)	urinary incontinence; (Core)	4.4.b.	Fellows must demonstrate competence in the evaluation and management of patients with urinary incontinence. (Core)
IV.B.1.b).(1).(b).(ii)	filling, storage, and emptying abnormalities of the lower urinary tract, and resulting abnormalities of the upper urinary tract; (Core)	4.4.c.	Fellows must demonstrate competence in the evaluation and management of patients with filling, storage, and emptying abnormalities of the lower urinary tract, and resulting abnormalities of the upper urinary tract.
